On May 3, 2026, Dell Technologies’ board of directors unanimously approved changing the jurisdiction of Dell Technologies’ state of incorporation from Delaware to Texas, subject to the approval of its stockholders (the “Redomestication”). The Redomestication, if approved, will be effected through a conversion of Dell Technologies pursuant to Section 266 of the Delaware General Corporation Law and Title 1, Chapter 10, Subchapter C of the Texas Business Organizations Code pursuant to, and in accordance with, a plan of conversion (the “Plan of Conversion”). By operation of the Plan of Conversion and upon consummation of the Redomestication, among other things, Dell Technologies will continue in existence as a Texas corporation and will continue to operate its business under its current name, “Dell Technologies Inc.” In addition, (i) each issued and outstanding share of our Class A, Class B and Class C common stock will be automatically converted into one outstanding share of Class A, Class B and Class C common stock, respectively, of the Texas corporation; and

(ii) each outstanding stock option, restricted stock unit, performance stock unit, other equity award or other right to acquire shares of Class C common stock of the Delaware corporation will continue in existence and automatically become a stock option, restricted stock unit, performance stock unit, other equity award or other right to acquire an equal number of shares, respectively, of Class C common stock of the Texas corporation under the same terms and conditions.

New Revolving Credit Facility

On June 10, 2026, Dell Technologies, Denali Intermediate, Dell, Dell International, as a borrower, and EMC, as a borrower, entered into a credit agreement with JPMorgan Chase Bank, N.A., as administrative agent, and each of the lenders and other parties from time to time party thereto (the “new credit agreement”), which provides for a senior unsecured revolving credit facility. Also on June 10, 2026, and in connection with the entry into the new credit agreement, Dell International and EMC repaid in full and terminated all of their obligations and commitments under the prior credit agreement.

The new credit agreement, which matures on June 10, 2031, unless extended, provides Dell International and EMC with revolving commitments in an aggregate principal amount of \$6,000,000,000 and with a letter of credit sub-facility of up to \$500,000,000. The new credit agreement also allows Dell International and EMC to request incremental commitments on one or more occasions in a minimum amount of \$10,000,000, provided that the Consolidated Interest Coverage Ratio (as defined in the new credit agreement), calculated on a pro forma basis, after giving effect to the incurrence of such commitment increase (assuming that the full amount of such commitment increase is drawn) and the use of proceeds thereof, shall not be less than 3.00:1.00 for the most recently completed four consecutive fiscal quarters of Dell Technologies for which financial statements have been delivered. The proceeds of the Loans (as defined in the new credit agreement) will be used by Dell and its subsidiaries for general corporate purposes.

Borrowings under the new credit agreement bear interest at a rate per annum equal to an applicable margin plus, at the borrowers’ option, either (a) the specified Secured Overnight Financing Rate (“SOFR”) or (b) a base rate. The margin applicable to SOFR and base rate borrowings varies based upon Dell Technologies’ existing credit ratings. The base rate is calculated based upon the greatest of the specified prime rate, the specified federal reserve bank rate plus 0.5%, and the specified term SOFR plus 1%. Borrowings under the new credit agreement may be voluntarily repaid at any time without premium or penalty, other than customary breakage costs.

- pari passu in right of payment with all existing and future senior indebtedness of the issuers and the guarantors, including the new revolving credit facility and the existing notes;
- structurally senior to the Legacy Notes that are issued by Dell, a parent entity of the issuers, and which are not guaranteed by the issuers; and
- structurally subordinated to all existing and future indebtedness and other liabilities of subsidiaries of the issuers, consisting mainly of DFS debt, other than indebtedness and liabilities owed to one of the issuers or guarantors.

See “Description of Notes—Optional Redemption.”

Change of Control Triggering Event

If a Change of Control Triggering Event (as defined in “*Description of Notes*”) occurs with respect to the notes, we must offer to repurchase such series of notes at a redemption price equal to 101% of the principal amount thereof (or such higher amount as the issuers may determine) plus any accrued and unpaid interest to, but not including, the repurchase date. See “*Description of Notes—Change of Control Triggering Event*.” See “*Risk Factors—Risks Related to the Notes and the Offering—We may not be able to finance a change of control offer as required by the Indenture that will govern the notes offered hereby*.”

Certain Covenants

The Indenture (as defined in “*Description of Notes*”) that will govern the notes will contain covenants that limit the ability of the issuers and their respective restricted subsidiaries to:

- create liens on certain assets to secure debt;

- consolidate, merge, sell or otherwise dispose of all or substantially all of their respective assets; and
- enter into sale and leaseback transactions.

These covenants are subject to important exceptions and qualifications as described under “*Description of Notes—Certain Covenants.*”

Minimum Denominations

The notes will be issued and may be transferred only in minimum denominations of \$2,000 and multiples of \$1,000 in excess thereof.

Trading

The notes will be new securities for which there are currently no markets. We do not intend to apply for listing of the notes on any securities exchange. Although the underwriters have informed us that they intend to make a market in the notes of each series, they are not obligated to do so, and they may discontinue market-making activities at any time without notice. Accordingly, we cannot assure you that liquid markets for the notes will develop or, if such markets develop, that they will be maintained. See “*Underwriting.*”

Use of Proceeds

We intend to use the net proceeds of the Offering for general corporate purposes, which may include the repayment of debt. See “*Use of Proceeds.*”

Risk Factors

You should consider carefully the risks, uncertainties and assumptions discussed under “*Risk Factors*” herein and in Dell Technologies’ Annual Report, along with the other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus before deciding to invest in the notes.

RISK FACTORS

You should carefully consider the risk factors set forth below as well as the other information contained in this prospectus supplement and the accompanying prospectus, including those discussed in Dell Technologies' Annual Report and in other documents that Dell Technologies files with the SEC that update, supplement or supersede such information, all of which are incorporated by reference into this prospectus supplement and the accompanying prospectus, before purchasing the notes. This prospectus supplement and the accompanying prospectus contain forward-looking statements that involve risks and uncertainties. If any of the events or developments described in the risk factors below actually occur, our business, financial condition or results of operations could be materially and adversely impacted. Additional risks and uncertainties not currently known to us or those we currently view to be immaterial may also materially and adversely affect our business, financial condition or results of operations. In such a case, you may lose all or part of your original investment.

Risks Related to the Notes and the Offering

The notes will be structurally subordinated to the debt and other liabilities of subsidiaries of the issuers, who will not guarantee the notes, and your right to receive payments on the notes could be adversely affected if any of such subsidiaries declares bankruptcy, liquidates or reorganizes.

Our obligations under the notes are structurally subordinated to the debt and other liabilities of subsidiaries of the issuers, who will not guarantee the notes. Holders of the notes will not have any claim as a creditor against such subsidiaries. In the event that any of such subsidiaries becomes insolvent, liquidates, reorganizes, dissolves or otherwise winds up, holders of their debt and their trade creditors will generally be entitled to payment on their claims from the assets of those subsidiaries before any of those assets are made available to us. Consequently, your claims in respect of the notes or note guarantees will be structurally subordinated to all of the liabilities of such subsidiaries. As of May 1, 2026, our non-guarantor subsidiaries (excluding the issuers) had \$91.8 billion of total liabilities (excluding intercompany liabilities), all of which were structurally senior to the notes and the note guarantees.

The terms of the Indenture that will govern the notes provide only limited protection against significant corporate events that could adversely impact your investment in the notes.

While the Indenture that will govern the notes will contain terms intended to provide protection to noteholders upon the occurrence of certain events involving significant corporate transactions and our creditworthiness, these terms are limited and may not be sufficient to protect your investment in the notes. For example, certain important corporate events, such as leveraged recapitalizations, may not, under the Indenture that will govern the notes, constitute a "change of control" that would require us to repurchase the notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings or the value of the notes. See "*Description of Notes—Change of Control Triggering Event.*"

In addition, the Indenture for the notes does not:

- require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity;
- limit our ability to incur unsecured indebtedness;
- restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness that would be senior to our equity interests in our subsidiaries and therefore rank effectively senior to the notes;
- restrict our ability to repurchase or prepay any other of our securities or other indebtedness;
- restrict our ability to make investments or to pay dividends or make other payments in respect of our common stock or other securities ranking junior to the notes; or
- limit our ability to sell, merge or consolidate any of our subsidiaries.

Table of Contents

As a result of the foregoing, when evaluating the terms of the notes, you should be aware that the terms of the Indenture that will govern the notes do not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events that could have an adverse impact on your investment in the notes.

We may not have sufficient cash flows from operating activities to service our indebtedness and meet our other cash needs and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make payments on and to refinance our indebtedness will depend on our ability to generate cash in the future. Our ability to generate cash will be subject to general economic, financial, competitive, legislative, regulatory and other factors, some of which are beyond our control. Our future cash flow, cash on hand and available borrowings may not be sufficient to meet our obligations and commitments. If we are unable to generate sufficient cash flow from operations in the future to service our indebtedness and to meet our other commitments, we will be required to adopt one or more alternatives, such as refinancing or restructuring our indebtedness (including the notes), selling material assets or operations or seeking to raise additional debt or equity capital. These actions may not be effected on a timely basis or on satisfactory terms or at all, or these actions may not enable us to continue to satisfy our capital requirements. Our failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all our debts. See “*Description of Notes.*”

In addition, we conduct substantially all of our operations through our subsidiaries, none of which (other than the issuers and the guarantors) will be obligors under the notes. Accordingly, repayment of our indebtedness, including the notes, will be dependent in part on the generation of cash flow by our subsidiaries and their ability to make such cash available to the issuers or the guarantors by dividend, debt repayment or otherwise. Unless they are guarantors of the notes or our other indebtedness, the subsidiaries will not have any obligation to pay amounts due on the notes or our other indebtedness, as applicable, or to make funds available for that purpose. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us or the issuers to make payments in respect of our indebtedness, including the notes. Each subsidiary is a distinct legal entity, and under certain circumstances legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. In the event that we, the issuers or the guarantors do not receive distributions from our subsidiaries, we may be unable to make the required principal and interest payments on our indebtedness, including the notes.

If we cannot make scheduled payments on our debt, we will be in default, and as a result, holders of the notes and certain of our other indebtedness could declare all outstanding principal and interest to be due and payable, the lenders under the new revolving credit facility could terminate their commitments to loan money and we could be forced into bankruptcy or liquidation, which, in each case, could result in your losing all or a portion of your investment in the notes.

We and our subsidiaries are not restricted from incurring significant additional debt, including significant secured debt and including in connection with significant transactions that would not constitute a change of control requiring us to repurchase the notes, but that could adversely affect our risk profile.

We and our subsidiaries may be able to incur substantial additional indebtedness, including significant additional secured indebtedness, in the future. The Indenture that will govern the notes, and the new credit agreement that governs the new revolving credit facility, do not restrict our ability to incur additional unsecured debt, except that the new credit agreement contains a quarterly covenant to maintain a consolidated interest coverage ratio of at least 3.00 to 1.00. In addition, while the new credit agreement restricts liens on the assets of Dell and its restricted subsidiaries to secure indebtedness (subject to certain exceptions described therein), the Indenture that will govern the notes will allow us to grant liens on our assets (other than Principal Properties, as described in “*Description of Notes*”) without ratably securing the notes. Under certain circumstances, the amount

of secured and unsecured indebtedness that we may incur while remaining in compliance with these restrictions could be substantial.

Such additional indebtedness may be incurred in connection with certain transactions, including certain recapitalizations, that would not result in a change of control requiring us to repurchase the notes, but would increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings.

We may not be able to finance a change of control offer as required by the Indenture that will govern the notes offered hereby.

Under the Indenture that will govern the notes offered hereby, upon the occurrence of a Change of Control Triggering Event, we will be required to offer to repurchase all of the notes then outstanding at 101% of the principal amount of the notes (or such higher amount as the issuers may determine), plus any accrued and unpaid interest, if any, to, but not including, the repurchase date. We may not be able to repurchase the notes upon a Change of Control Triggering Event because we may not have sufficient financial resources to purchase all of the notes that would be tendered upon a Change of Control Triggering Event. Our failure to repurchase the notes upon a Change of Control Triggering Event would cause an event of default under the Indenture that will govern the notes offered hereby and a cross-default under the new revolving credit facility. The new credit agreement governing the new revolving credit facility also provides that a change of control triggering event (as described therein) is an event of default that permits lenders to, among other things, terminate their commitments and accelerate the maturity of borrowings thereunder. Any of our future debt arrangements may contain similar provisions. We cannot assure you that we will have the financial resources available or that we will be permitted by our debt instruments to fulfill these obligations upon the occurrence of a Change of Control Triggering Event in the future. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain financing on satisfactory terms or at all. Further, our ability to repurchase the notes may be limited by law.

Holders of the notes may not be able to determine when a change of control giving rise to their right to have the notes repurchased has occurred following a sale of “substantially all” of our assets.

One of the circumstances under which a change of control may occur is upon the sale or disposition of “all or substantially all” of our assets. There is no precise established definition of the phrase “substantially all” under applicable law, and the interpretation of that phrase will likely depend upon particular facts and circumstances. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale of less than all our assets to another person may be uncertain.

Ratings of the notes and other factors may affect the market prices and marketability of the notes.

We currently expect that, upon issuance, the notes will be rated by Moody’s, S&P, and Fitch. Such ratings will be limited in scope and will not address all material risks relating to an investment in the notes, but rather will reflect only the view of each rating agency at the time it issues the rating. An explanation of the significance of such rating may be obtained from such rating agency. There is no assurance that such credit ratings will be issued or remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in each rating agency’s judgment, circumstances so warrant. It is also possible that such ratings may be lowered in connection with the Offering or in connection with future events, such as future acquisitions. Holders of the notes will have no recourse against us or any other parties in the event of a change in or suspension or withdrawal of such ratings. Any lowering, suspension or withdrawal of such ratings may have an adverse effect on the market prices or marketability of the notes. In addition, the condition of the financial markets, prevailing interest rates and other factors have fluctuated in the past and are likely to fluctuate in the future, which may adversely affect the market prices or marketability of the notes.

We cannot assure you that an active trading market will develop for the notes.

The notes constitute new issues of securities for which there are no existing trading markets. We do not currently plan to list the notes on any national securities exchange. We have been advised by the underwriters for this offering that they presently intend to make a market in the notes of each series after the consummation of the offering contemplated by this prospectus supplement, although they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. The liquidity of any market for the notes will depend upon the number of holders of those notes, our performance, the market for similar securities, the interest of securities dealers in making a market in those notes and other factors. Liquid trading markets may not develop for the notes. As a result, the market prices of the notes could be adversely affected.

DESCRIPTION OF NOTES

The Notes (as defined below) offered by this prospectus supplement are “debt securities” as described in the accompanying prospectus. This description supplements the description of the debt securities found in the accompanying prospectus.

The Issuers will issue \$ _____ aggregate principal amount of _____ % Senior Notes due 20____ (the “20____ Notes”), \$ _____ aggregate principal amount of _____ % Senior Notes due 20____ (the “20____ Notes”) and \$ _____ aggregate principal amount of _____ % Senior Notes due 20____ (the “20____ Notes” and, together with the 20____ Notes and the 20____ Notes, the “Notes” and each, a “series” of Notes), pursuant to an indenture, dated as of January 24, 2023 (the “Base Indenture”), among the Issuers, the Guarantors and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”). The Base Indenture will be supplemented by a supplemental indenture, to be dated as of the Issue Date, for each series of Notes. Each supplemental indenture will set forth certain specific terms applicable only to the particular series of Notes governed thereby and references to the “Indenture” herein mean the Base Indenture as amended and supplemented by any supplemental indenture. The terms of the Notes will include the terms stated in the Indenture and the terms made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”).

The Base Indenture does not limit the amount of debt securities that the Issuers may issue thereunder. To the extent permitted by the Indenture, the Issuers may issue debt securities under the Base Indenture up to an aggregate principal amount as they may authorize from time to time.

The following description is only a summary of certain provisions of the Indenture and the Notes, does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all the provisions of the Indenture and the Notes, including the definitions therein of certain terms used below. We urge you to read each of these documents because they, not this description, define your rights as Holders. You may request copies of these agreements at the address of Parent set forth under the heading “Summary.”

Certain terms used in this description are defined under the heading “Certain Definitions.” In this section of the prospectus supplement, references to the “Issuers” are to Dell International and EMC, the co-issuers of the Notes offered hereby, and not any of their Subsidiaries.

Brief Description of the Notes

- structurally senior to the Legacy Notes that are issued by Dell, a Parent Entity of the Issuers, and which are not guaranteed by the Issuers; and
- structurally subordinated to all existing and future indebtedness and other liabilities of Subsidiaries of the Issuers, other than indebtedness and liabilities owed to one of the Issuers or Guarantors.

Unless the context requires otherwise, references to “Notes” of a series for all purposes of the Indenture, the Note Guarantees and this “Description of Notes” include any Additional Notes of such series that are actually issued.

Each of the 20 Notes, the 20 Notes and the 20 Notes will constitute a separate series of notes for purposes of the Indenture. The Notes will be issued in minimum denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Optional Redemption

Prior to , 20 , in the case of the 20 Notes (months prior to the maturity date of the 20 Notes) (the “20 Notes par call date”), , 20 , in the case of the 20 Notes (months prior to the maturity date of the 20 Notes) (the “20 Notes par call date”), and , 20 , in the case of the 20 Notes (months prior to the maturity date of the 20 Notes) (the “20 Notes par call date” and, together with the 20 Notes par call date and the 20 Notes par call date, each a “par call date”), the Issuers may redeem the Notes at their option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

- (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming the Notes matured on the applicable par call date) on a

semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus basis points (in the case of the 20 Notes), basis points (in the case of the 20 Notes) and basis points (in the case of the 20 Notes) less (b) interest accrued to the date of redemption, and

(2) 100% of the principal amount of the Notes to be redeemed,

plus, in either case, accrued and unpaid interest thereon to, but excluding, the redemption date.

On or after the applicable par call date, the Issuers may redeem the Notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the Notes being redeemed plus accrued and unpaid interest thereon to, but excluding, the redemption date.

“Treasury Rate” means, with respect to any redemption date, the yield determined by the Issuers in accordance with the following two paragraphs.

The Treasury Rate shall be determined by the Issuers after 4:15 p.m., New York City time (or after such time as yields on U.S. government securities are posted daily by the Board of Governors of the Federal Reserve System), on the third business day preceding the redemption date based upon the yield or yields for the most recent day that appear after such time on such day in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as “Selected Interest Rates (Daily)—H.15” (or any successor designation or publication) (“H.15”) under the caption “U.S. government securities—Treasury constant maturities—Nominal” (or any successor caption or heading) (“H.15 TCM”). In determining the Treasury Rate, the Issuers shall select, as applicable: (1) the yield for the Treasury constant maturity on H.15 exactly equal to the period from the redemption date to the applicable par call date (the “Remaining Life”); or (2) if there is no such Treasury constant maturity on H.15 exactly equal to the Remaining Life, the two yields—one yield corresponding to the Treasury constant maturity on H.15 immediately shorter than and one yield corresponding to the Treasury constant maturity on H.15 immediately longer than the Remaining Life—and shall interpolate to the applicable par call date on a straight-line basis (using the actual number of days) using such yields and rounding the result to three decimal places; or (3) if there is no such Treasury constant maturity on H.15 shorter than or longer than the Remaining Life, the yield for the single Treasury constant maturity on H.15 closest to the Remaining Life. For purposes of this paragraph, the applicable Treasury constant maturity or maturities on H.15 shall be deemed to have a maturity date equal to the relevant number of months or years, as applicable, of such Treasury constant maturity from the redemption date.

If on the third business day preceding the redemption date H.15 TCM is no longer published, the Issuers shall calculate the Treasury Rate based on the rate per annum equal to the semi-annual equivalent yield to maturity at 11:00 a.m., New York City time, on the second business day preceding such redemption date of the United States Treasury security maturing on, or with a maturity that is closest to, the applicable par call date, as applicable. If there is no United States Treasury security maturing on the applicable par call date but there are two or more United States Treasury securities with a maturity date equally distant from the applicable par call date, one with a maturity date preceding the applicable par call date and one with a maturity date following the applicable par call date, the Issuers shall select the United States Treasury security with a maturity date preceding the applicable par call date. If there are two or more United States Treasury securities maturing on the applicable par call date or two or more United States Treasury securities meeting the criteria of the preceding sentence, the Issuers shall select from among these two or more United States Treasury securities the United States Treasury security that is trading closest to par based upon the average of the bid and asked prices for such United States Treasury securities at 11:00 a.m., New York City time. In determining the Treasury Rate in accordance with the terms of this paragraph, the semi-annual yield to maturity of the applicable United States Treasury security shall be based upon the average of the bid and asked prices (expressed as a percentage of principal amount) at 11:00 a.m., New York City time, of such United States Treasury security, and rounded to three decimal places.

Table of Contents

The Issuers' actions and determinations in determining the redemption price shall be conclusive and binding for all purposes, absent manifest error. The Trustee shall have no obligation to determine the redemption price or to verify the calculation of the redemption price.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Issuers are not required to make any mandatory redemption or sinking fund payments with respect to the Notes. In addition, other than as required under "Change of Control Triggering Event," the Issuers will not be required to offer to repurchase or redeem or otherwise modify the terms of any of the Notes upon a change in control of, or other events involving, Parent or any of its Subsidiaries which may adversely affect the creditworthiness of the Notes. The Issuers and their Affiliates may at any time and from time to time acquire the Notes by means other than a redemption, whether pursuant to a tender offer, purchases in the open market, in privately negotiated transactions or otherwise.

Change of Control Triggering Event

The Notes will provide that if a Change of Control Triggering Event occurs with respect to a series of Notes, unless, prior to or concurrently with the time the Issuers are required to make a Change of Control Offer, the Issuers have mailed or delivered, or otherwise sent through electronic transmission, a redemption notice with respect to all the outstanding Notes of such series as described under "Optional Redemption" or "Satisfaction and Discharge," the Issuers will make an offer to purchase all of the Notes of such series pursuant to the offer described below (the "*Change of Control Offer*") at a price in cash equal to 101% of the aggregate principal amount thereof (or such higher amount as the Issuers may determine (any Change of Control Offer at a higher amount, an "*Alternate Offer*") (such price, the "*Change of Control Payment*") plus accrued and unpaid interest, if any, to, but excluding the date of purchase, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control Triggering Event with respect to a series of Notes, the Issuers will send notice of such Change of Control Offer by first-class mail, with a copy to the Trustee, to each Holder of Notes of such series to the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, with the following information:

- (1) that a Change of Control Offer is being made pursuant to the covenant entitled "Change of Control Triggering Event," and that all Notes of such series properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuers;
- (2) the purchase price and the purchase date, which will be no earlier than 20 Business Days and no later than 60 days from the date such notice is sent (the "*Change of Control Payment Date*"); provided, that the Change of Control Payment Date may be delayed, in the Issuers' discretion, until such time (including more than 60 days after the date such notice is sent) as any or all such conditions referred to in clause (7) below shall be satisfied or waived;
- (3) that any Note of such series not properly tendered will remain outstanding and continue to accrue interest;
- (4) that unless the Issuers default in the payment of the Change of Control Payment plus accrued and unpaid interest on all properly tendered Notes of such series, all Notes of such series accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;
- (5) that Holders electing to have any Notes of such series purchased pursuant to a Change of Control Offer will be required to surrender such Notes of such series, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such Notes completed or otherwise in accordance with the procedures of DTC, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

Table of Contents

- (6) that if less than all of such Holder's Notes of such series are tendered for purchase, such Holder will be issued new Notes of such series (or, in the case of global notes, such Notes shall be reduced by such amount of Notes of such series that the Holder has tendered) and such new Notes will be equal in aggregate principal amount to the unpurchased portion of the Notes of such series surrendered (the unpurchased portion of the Notes of such series must be equal to \$2,000 or an integral multiple of \$1,000 in excess thereof);
- (7) if such notice is sent prior to the occurrence of a Change of Control Triggering Event, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control Triggering Event or such other conditions specified therein and describing each such condition, and, if applicable, stating that, in the Issuers' discretion, the Change of Control Payment Date may be delayed until such time as any or all such conditions shall be satisfied or waived (including more than 60 days after the notice is mailed or delivered), or that such purchase may not occur and such notice may be rescinded in the event that the Issuers reasonably believe that any or all such conditions (including the occurrence of the Change of Control Triggering Event) will not be satisfied or waived by the Change of Control Payment Date, or by the Change of Control Payment Date as so delayed; and
- (8) the other instructions, as determined by the Issuers, consistent with this covenant, that a Holder must follow.

While the Notes of a series are in global form and the Issuers make an offer to purchase all of the Notes of such series pursuant to the Change of Control Offer, a Holder of such series of Notes may exercise its option to elect for the purchase of the Notes of such series through the facilities of DTC, subject to its rules and regulations.

The Issuers will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuers will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuers will, to the extent permitted by law,

- (1) accept for payment all Notes issued by them or portions thereof properly tendered pursuant to the Change of Control Offer,
- (2) deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered, plus accrued and unpaid interest thereon, and
- (3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuers.

The new revolving credit facility provides, and any future credit agreements or other agreements relating to indebtedness to which the Issuers (or any of their Affiliates) become parties may provide, that certain change of control events with respect to Parent would constitute an event of default thereunder. If Parent experiences a change of control that triggers an event of default under the new revolving credit facility and/or any indebtedness governed by such other agreements, we could seek a waiver of such event of default or seek to refinance the new revolving credit facility and/or such other agreements. In the event we do not obtain such a waiver or refinance the new revolving credit facility and/or such other agreements, such event of default could result in amounts outstanding under the new revolving credit facility and/or such other agreements being declared due and payable.

Our ability to pay cash to the Holders of Notes following the occurrence of a Change of Control Triggering Event may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available

when necessary to make any required repurchases. See “*Risk Factors—Risks Related to the Notes and the Offering—We may not be able to finance a change of control offer as required by the Indenture that will govern the notes offered hereby.*”

The Change of Control Triggering Event purchase feature of the Notes may in certain circumstances make it more difficult or discourage a sale or takeover of Parent, and, thus, the removal of incumbent management. The Change of Control Triggering Event purchase feature is a result of negotiations between the underwriters and us. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control Triggering Event under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings.

The Issuers will not be required to make a Change of Control Offer if a third party makes the Change of Control Offer (including, for the avoidance of doubt, an Alternate Offer) in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuers and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer (including, for the avoidance of doubt, an Alternate Offer) may be made in advance of a Change of Control Triggering Event, conditional upon such Change of Control Triggering Event or such other conditions specified therein, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

With respect to the Notes of any series, if Holders of not less than 90% in aggregate principal amount of the outstanding Notes of such series validly tender and do not withdraw such Notes in a Change of Control Offer and the Issuers, or any third party making a Change of Control Offer in lieu of the Issuers as described above, purchases all of the Notes validly tendered and not withdrawn by such Holders, the Issuers or such third party will have the right, upon not less than 10 nor more than 60 days’ prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes of such series that remain outstanding following such purchase on a date (the “*Second Change of Control Payment Date*”) at a price in cash equal to the Change of Control Payment (excluding any early tender premium or similar premium and any accrued and unpaid interest paid to any Holder pursuant to such Change of Control Payment) in respect of the Second Change of Control Payment Date, including, to the extent not included in the Change of Control Payment, accrued and unpaid interest, if any, thereon, to, but excluding, the Second Change of Control Payment Date, subject to the right of Holders of record of Notes of such series on the relevant record date to receive interest due on the relevant interest payment date falling on or prior to the Second Change of Control Payment Date.

The definition of “*Change of Control*” includes a disposition of all or substantially all of the assets of Parent and its Subsidiaries, taken as a whole, to any Person other than any Permitted Holders. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of “all or substantially all” of the assets of Parent and its Subsidiaries, taken as a whole. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of Notes may require the Issuers to make an offer to repurchase the Notes as described above. See “*Risk Factors—Risks Related to the Notes and the Offering—Holders of the notes may not be able to determine when a change of control giving rise to their right to have the notes repurchased has occurred following a sale of “substantially all” of our assets.*”

The provisions of the Indenture relating to the Issuers’ obligation to make a Change of Control Offer with respect to the Notes of any series upon a Change of Control Triggering Event may be waived or modified at any time with the written consent of the Holders of a majority in aggregate principal amount of the Notes of such series then outstanding. A Change of Control Offer (including, for the avoidance of doubt, an Alternate Offer)

Table of Contents

may be made at the same time as consents are solicited with respect to an amendment, supplement or waiver of the Indenture, the Notes and/or the Note Guarantees so long as the tender of Notes by a Holder is not conditioned upon the delivery of consents by such Holder. In addition, the Issuers or any third party approved in writing by the Issuers that is making the Change of Control Offer (including, for the avoidance of doubt, an Alternate Offer) may increase or decrease the Change of Control Payment (or decline to pay any early tender or similar premium) being offered to Holders at any time in its sole discretion, so long as the Change of Control Payment is at least equal to 101% of the aggregate principal amount of the Notes being repurchased, plus accrued and unpaid interest thereon.

Selection and Notice

In the case of a partial redemption or purchase, selection of the Notes of a series for redemption or purchase will be made by lot. No Notes of a principal amount of \$2,000 or less will be redeemed or purchased in part. If any Note of a series is to be redeemed or purchased in part only, the notice of redemption or purchase that relates to the Note will state the portion of the principal amount of the Note to be redeemed or purchased. A new Note of such series in a principal amount equal to the unredeemed or unpurchased portion of the Note will be issued in the name of the Holder of the Note upon surrender for cancellation of the original Note; *provided* that the new Note will be only issued in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. For so long as the Notes are held by DTC (or another depository), the redemption or purchase of the Notes shall be done in accordance with the policies and procedures of the depository.

Notices of redemption or offer to purchase shall be delivered electronically or mailed by first-class mail, postage prepaid, at least 10 days, but except as set forth in the immediately succeeding paragraph, not more than 60 days before the redemption date or purchase date to each Holder at such Holder's registered address or otherwise in accordance with the procedures of DTC, except that notices of redemption may be delivered or mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of any series of Notes or a satisfaction and discharge of the Indenture with respect to any series of Notes.

Notice of any redemption of, or any offer to purchase, the Notes may, at the Issuers' discretion, be given in connection with another transaction (or series of related transactions) and prior to the completion or the occurrence thereof, and any such redemption or purchase may, at the Issuers' discretion, be subject to one or more conditions precedent, including, but not limited to, completion or occurrence of the related transaction or event, as the case may be. In addition, if such redemption or purchase is subject to satisfaction of one or more conditions precedent, such notice shall describe each such condition, and if applicable, shall state that, in the Issuers' discretion, the redemption date or purchase date may be delayed until such time (including more than 60 days after the date the notice of redemption or offer to purchase was mailed or delivered, including by electronic transmission) as any or all such conditions shall be satisfied or waived, or such redemption or purchase may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied or waived by the redemption date or purchase date or by the redemption date or purchase date as so delayed, or such notice may be rescinded at any time in the Issuers' discretion if the Issuers reasonably believe that any or all of such conditions will not be satisfied. In addition, the Issuers may provide in such notice or offer that payment of the redemption or purchase price and performance of the Issuers' obligations with respect to such redemption or offer to purchase may be performed by another Person.

Notes called for redemption or purchase become due on the date fixed for redemption or purchase, unless such redemption or purchase is conditioned on the happening of a future event. On and after the redemption or purchase date, unless the Issuers default in payment of the redemption or purchase price, interest shall cease to accrue on Notes or portions of them called for redemption or purchase, unless such redemption or purchase remains conditioned on the occurrence of a future event.

The Issuers may redeem Notes pursuant to one or more of the relevant provisions in the Indenture, and a single notice of redemption may be delivered with respect to redemptions made pursuant to different provisions.

Table of Contents

Any such notice may provide that redemptions made pursuant to different provisions will have different redemption dates and, with respect to redemptions that occur on the same date, may specify the order in which such redemptions are deemed to occur.

Certain Covenants

Limitation on Liens

The Issuers will not, and will not permit any of their Restricted Subsidiaries to, directly or indirectly, create, incur or assume any Lien (except Permitted Liens) on any of their or any Restricted Subsidiary's Principal Property (whether such Principal Property is now existing or owned or hereafter created or acquired) that secures indebtedness for borrowed money, unless the Notes are equally and ratably secured with (or, at an Issuer's option, on a senior basis to) the indebtedness so secured.

Notwithstanding the immediately preceding paragraph, the Issuers and their Restricted Subsidiaries may, without equally and ratably securing the Notes, create, incur or assume any Lien which would otherwise be prohibited by the foregoing paragraph if, after giving effect thereto and at the time of determination, Aggregate Debt of the Issuers and their Restricted Subsidiaries secured by Liens on any of their respective Principal Properties does not exceed at any one time outstanding the greater of (x) \$4,300 million and (y) 15% of Consolidated Net Tangible Assets.

Any Lien created for the benefit of the Holders of any series of Notes pursuant to the second paragraph under this "Limitation on Liens" covenant shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the release and discharge of the Lien that gave rise to the obligation to secure the Notes of such series.

Limitation on Sale and Lease-Back Transactions

The Issuers will not, and will not permit any of their Restricted Subsidiaries to, enter into any Sale and Lease-Back Transaction with respect to any Principal Property unless (a) the Issuers or such Restricted Subsidiary would be entitled to incur Indebtedness secured by a Lien on the Principal Property involved in such transaction at least equal in amount to the Attributable Indebtedness with respect to such Sale and Lease-Back Transaction without equally and ratably securing the Notes pursuant to the first paragraph under "—Limitation on Liens," or (b) the Issuers shall apply an amount equal to the net proceeds of the Attributable Indebtedness with respect to such Sale and Lease-Back Transaction within 365 days after such Sale and Lease-Back Transaction to the defeasance or retirement of any series of Notes or other indebtedness of the Issuers or a Restricted Subsidiary or to the purchase, construction or development of other assets or property.

Notwithstanding the foregoing, the Issuers and their Restricted Subsidiaries may enter into any Sale and Lease-Back Transaction which would otherwise be prohibited by the foregoing paragraph if, after giving effect thereto and at the time of determination, Aggregate Debt does not exceed at any one time outstanding the greater of (x) \$4,300 million and (y) 15% of Consolidated Net Tangible Assets.

Certain Definitions

Set forth below are certain defined terms to be used in the Indenture. For purposes of the Indenture, unless otherwise specifically indicated, the term "consolidated" with respect to any Person refers to such Person on a consolidated basis in accordance with GAAP.

"*Affiliate*" of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition,

Table of Contents

“control” (including, with correlative meanings, the terms “controlling,” “controlled by” and “under common control with”), as used with respect to any Person, shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise.

“*Aggregate Debt*” means, as of the date of determination, the sum of (1) the aggregate principal amount of Indebtedness of the Issuers and their Restricted Subsidiaries secured by Liens (other than Permitted Liens) that is not permitted by the first paragraph under “Certain Covenants—Limitation on Liens” and (2) the Attributable Indebtedness of the Issuers and their Restricted Subsidiaries in respect of Sale and Lease-Back Transactions entered into pursuant to the second paragraph of “Certain Covenants—Limitation on Sale and Lease-Back Transactions.”

“*Attributable Indebtedness*” when used in connection with a Sale and Lease-Back Transaction relating to a Principal Property means, at the time of determination, the lesser of (a) the fair market value of property or assets involved in the Sale and Lease-Back Transaction, (b) the present value of the total net amount of rent required to be paid under such lease during the remaining term thereof (including any renewal term or period for which such lease has been extended), computed by discounting from the respective due dates to such date such total net amount of rent at the rate of interest set forth or implicit in the terms of such lease or, if not practicable to determine such rate, the rate per annum equal to the weighted average interest rate per annum borne by the Notes of each series outstanding pursuant to the Indenture compounded semi-annually, or (c) if the obligation with respect to the Sale and Lease-Back Transaction constitutes a Financing Lease Obligation, the amount equal to the capitalized amount of such obligation determined in accordance with GAAP and included in the financial statements of the lessee. For purposes of the foregoing definition, rent shall not include amounts required to be paid by the lessee, whether or not designated as rent or additional rent, on account of or contingent upon maintenance and repairs, insurance, taxes, assessments, water rates and similar charges. In the case of any lease that is terminable by the lessee upon the payment of a penalty, such net amount shall be the lesser of the net amount determined assuming termination upon the first date such lease may be terminated (in which case the net amount shall also include the amount of the penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be so terminated) or the net amount determined assuming no such termination.

“*Board*” with respect to a Person means the board of directors (or similar body, including any sole or managing member, as applicable) of such Person or any committee thereof duly authorized to act on behalf of such board of directors (or similar body, including any sole or managing member, as applicable).

- (2) Parent consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, Parent, in any such event pursuant to a transaction in which the outstanding Voting Stock of Parent or the Voting Stock of such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of Voting Stock of Parent outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving Person or any direct or indirect parent company of the surviving Person, measured by voting power rather than number of shares, immediately after giving effect to such transaction;

Table of Contents

For purposes of determining compliance with this definition, (i) a Lien need not be incurred solely by reference to one category of Permitted Liens described in this definition but are permitted to be incurred in part under any combination thereof and of any other available exemption and (ii) in the event that a Lien (or any portion thereof) meets the criteria of one or more of the categories of Permitted Liens, the Issuers shall, in their sole discretion, classify or reclassify such Lien (or any portion thereof) in any manner that complies with this definition.

For purposes of this definition, the term “indebtedness” shall be deemed to include interest on such indebtedness.

“*Permitted Parent*” means any Parent Entity that at the time it became a Parent Entity of Parent was a Permitted Holder pursuant to clause (1) of the definition thereof and was not formed in connection with, or in contemplation of, a transaction that would otherwise constitute a Change of Control.

“*Rating Agency*” means (1) S&P, Moody’s and Fitch or (2) if S&P, Moody’s or Fitch or each of them shall not make a corporate rating with respect to the Issuers (or any Guarantor) or a rating on any series of the Notes publicly available, a nationally recognized statistical rating agency or agencies, as the case may be, selected by Parent, which shall be substituted for any or all of S&P, Moody’s or Fitch, as the case may be, with respect to such corporate rating or the rating of such series of Notes, as the case may be.

BOOK ENTRY; DELIVERY AND FORM

The notes will initially be represented by one or more fully registered global notes (“Global Notes”). Each such global note will be deposited with, or on behalf of, The Depository Trust Company (“DTC”) or any successor thereto and registered in the name of Cede & Co. (DTC’s nominee). Except as set forth below, the notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. Notes will be issued at the closing of the Offering only against payment in immediately available funds.

Investors may hold interests in a Global Note through DTC in the United States if they are participants in DTC or indirectly hold such interests through organizations that are participants in DTC. Clearstream Banking S.A. (“Clearstream, Luxembourg”) and Euroclear Bank S.A./N.V., as operator of the Euroclear System (“Euroclear”), will hold interests on behalf of their participants through customers’ securities accounts in Clearstream, Luxembourg’s and Euroclear’s name on the books of their respective depositories, which in turn will hold such interests in customers’ securities accounts in the depositories’ names on the books of DTC.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for definitive notes in registered certificated form (“Certificated Notes”) except in the limited circumstances described below. See “—*Exchange of Global Notes for Certificated Notes.*” Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of notes in certificated form.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream, Luxembourg is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company organized under the laws of the State of New York, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the “Participants”) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC’s system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the “Indirect Participants”). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

- upon deposit of the Global Notes, DTC will credit the accounts of the Participants designated by the underwriters with portions of the principal amount of the Global Notes; and
- ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Table of Contents

Investors in the Global Notes who are Participants may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream, Luxembourg) that are Participants. Citibank, N.A. acts as depositary for Clearstream, Luxembourg, and JPMorgan Chase Bank acts as depositary for Euroclear. All interests in a Global Note, including those held through Euroclear or Clearstream, Luxembourg, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream, Luxembourg may also be subject to the procedures and requirements of such systems. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or “holders” thereof under the Indenture that will govern the notes for any purpose.

Payments in respect of the principal of, and interest and premium, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, we and the trustee thereunder will treat the persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither we nor any agent of ours or either trustee has or will have any responsibility or liability for:

- any aspect of DTC’s records or any Participant’s or Indirect Participant’s records relating to, or payments made on account of, beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC’s records or any Participant’s or Indirect Participant’s records relating to the beneficial ownership interests in the Global Notes; or
- any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be our responsibility or the responsibility of DTC or either trustee. Neither we nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between the Participants will be effected in accordance with DTC’s procedures and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream, Luxembourg participants, on the other hand, will be effected through DTC in accordance with DTC’s rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its respective depositary. However, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the

[Table of Contents](#)

established deadlines (Brussels time) of such system. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream, Luxembourg.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an event of default under any of the notes, DTC reserves the right to exchange the Global Notes in respect of such notes for legended notes in certificated form and to distribute such notes to its Participants.

Although DTC, Euroclear, and Clearstream, Luxembourg have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear, and Clearstream, Luxembourg, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we nor the trustee nor any of our or its agents will have any responsibility for the performance by DTC, Euroclear, or Clearstream, Luxembourg or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes if:

- DTC (1) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (2) has ceased to be a clearing agency registered under the Exchange Act and, in either case, we fail to appoint a successor depository; or
- there has occurred and is continuing an event of default with respect to such notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

We will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, and interest) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. We will make all payments of principal, interest and premium, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

[Table of Contents](#)

Because of time-zone differences, credits of interests in the Global Notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions involving interests in such Global Notes settled during such processing will be reported to the relevant Clearstream, Luxembourg or Euroclear participants on such business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of interests in the Global Notes by or through a Clearstream, Luxembourg participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of certain United States federal income tax consequences of the purchase, ownership and disposition of the notes as of the date hereof. This summary deals only with notes that are held as capital assets (within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”)) by persons who purchase the notes for cash upon original issuance at their “issue price” (the first price at which a substantial amount of notes of the applicable series is sold for money to investors, excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of an underwriter, placement agent or wholesaler).

This summary does not represent a detailed description of the United States federal income tax consequences applicable to you if you are a person subject to special tax treatment under the United States federal income tax laws, including if you are:

- a dealer in securities or currencies;
- a financial institution;
- a regulated investment company;
- a real estate investment trust;
- a tax-exempt entity;
- an insurance company;
- a controlled foreign corporation;
- a passive foreign investment company;
- a person holding the notes as part of a hedging, integrated, conversion or constructive sale transaction or a straddle;
- a trader in securities that has elected the mark-to-market method of accounting for your securities;
- a person liable for alternative minimum tax;
- a U.S. Holder (as defined below) that holds notes through a non-U.S. broker or other non-U.S. intermediary;
- a partnership or other pass-through entity (or an investor in such entity) for United States federal income tax purposes;
- a person required to accelerate the recognition of any item of gross income with respect to the notes as a result of such income being recognized on an applicable financial statement;
- a U.S. Holder (as defined below) whose “functional currency” is not the U.S. dollar; or
- a U.S. expatriate.

In addition, this summary does not represent a detailed description of the United States federal income tax consequences applicable to you if you are a holder of our 2026 Notes.

The discussion below is based upon the provisions of the Code, United States Treasury regulations, administrative rulings and judicial decisions thereunder as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income tax consequences different from those discussed below. In addition, we have not sought any rulings from the Internal Revenue Service (“IRS”) regarding the matters discussed below, and there can be no assurance that the IRS will not take positions concerning the tax consequences of the purchase, ownership or disposition of the notes that are different from those discussed below.

Table of Contents

If any entity classified as a partnership for United States federal income tax purposes holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partnership or a partner in a partnership considering an investment in the notes, you should consult your tax advisors.

This summary does not represent a detailed description of the United States federal income tax consequences to you in light of your particular circumstances and does not address the effects of any other United States federal tax laws (such as the Medicare contribution tax on net investment income) or any state, local or non-United States tax laws. It is not intended to be, and should not be construed to be, legal or tax advice to any particular purchaser of notes.

If you are considering the purchase of notes, you should consult your own tax advisors concerning the particular United States federal income tax consequences to you of the purchase, ownership and disposition of the notes, as well as any consequences to you arising under other United States federal tax laws and the laws of any other taxing jurisdiction.

Consequences to U.S. Holders

The following is a summary of certain United States federal income tax consequences that will apply to you if you are a U.S. Holder.

As used herein, "U.S. Holder" means a beneficial owner of a note that is, for United States federal income tax purposes, any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust if it (a) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (b) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

Payments of Stated Interest

Stated interest on a note will generally be taxable to you as ordinary income at the time it is paid or accrued, in accordance with your method of accounting for United States federal income tax purposes. We expect, and this summary assumes, that the notes will not be issued with more than a de minimis amount of original issue discount for United States federal income tax purposes.

Sale, Exchange, Retirement, Redemption or Other Taxable Disposition of Notes

Upon the sale, exchange, retirement, redemption or other taxable disposition of a note, you will generally recognize gain or loss in an amount equal to the difference, if any, between the amount realized upon the sale, exchange, retirement, redemption or other taxable disposition (less any amount attributable to any accrued but unpaid stated interest, which will be taxable as ordinary income for United States federal income tax purposes to the extent not previously included in income) and the adjusted tax basis of the note. Your adjusted tax basis in a note will, in general, be your cost for that note. Any gain or loss will be capital gain or loss and will generally be long-term capital gain or loss if you have held the note for more than one year. Long-term capital gains of non-corporate U.S. Holders are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

In general, information reporting will apply to payments of interest and to the proceeds of a sale or other taxable disposition (including a retirement or redemption) of a note paid to you (unless you are an exempt recipient). Backup withholding may apply to payments described in the preceding sentence if you fail to provide a correct taxpayer identification number or a certification that you are not subject to backup withholding, or if you fail to report in full dividend and interest income.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against your United States federal income tax liability, provided the required information is timely furnished to the IRS.

Consequences to Non-U.S. Holders

The following is a summary of certain United States federal income tax consequences that will apply to you if you are a Non-U.S. Holder.

“Non-U.S. Holder” means a beneficial owner of a note, other than an entity treated as a partnership for United States federal income tax purposes, that is not a U.S. Holder (as defined above).

United States Federal Withholding Tax

Subject to the discussion below concerning backup withholding and FATCA, United States federal withholding tax will not apply to any payment of interest on a note under the “portfolio interest” rule, provided that:

- the interest is not effectively connected with your conduct of a trade or business in the United States;
- you do not actually or constructively own stock possessing 10% or more of the total combined voting power of all classes of the voting stock (within the meaning of the Code and applicable United States Treasury regulations) of Dell Inc. or EMC Corporation;
- you are not a controlled foreign corporation that is actually or constructively related to Dell Inc. or EMC Corporation through stock ownership;
- you are not a bank whose receipt of interest on a note is described in Section 881(c)(3)(A) of the Code; and
- either (a) you provide your name and address on an applicable IRS Form W-8 (or other applicable form), and certify, under penalties of perjury, that you are not a United States person as defined under the Code or (b) you hold the note through certain foreign intermediaries and satisfy the certification requirements of applicable United States Treasury regulations. Special certification rules apply to Non-U.S. Holders that are pass-through entities rather than corporations or individuals.

If you cannot satisfy the requirements of the “portfolio interest” exception described above, payments of interest made to you will be subject to a 30% United States federal withholding tax, unless you provide the applicable withholding agent with a properly executed (a) IRS Form W-8BEN or W-8BEN-E (or other applicable form) claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (b) IRS Form W-8ECI (or other applicable form) stating that interest paid on the note is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States (as discussed below under “—United States Federal Income Tax”). Alternative documentation may be applicable in certain situations. The 30% United States federal withholding tax generally will not apply to any payment of principal or gain that you recognize on the sale, exchange, retirement, redemption or other disposition of a note.

United States Federal Income Tax

If interest on the notes is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment), you generally will be subject to United States federal income tax on such interest on a net income basis in generally the same manner as if you were a United States person as defined under the Code. In addition, if you are a corporation, you may be subject to a branch profits tax equal to 30% (or a lower rate under an applicable income tax treaty) of your effectively connected earnings and profits attributable to such interest, subject to adjustments. Interest received in respect of the notes that is effectively connected with a U.S. trade or business (whether or not an income tax treaty applies) will be exempt from the 30% United States federal withholding tax, provided the certification requirements discussed above in “—United States Federal Withholding Tax” are satisfied.

Subject to the discussion of backup withholding below, any gain recognized on the sale, exchange, retirement, redemption or other taxable disposition of a note generally will not be subject to United States federal income tax unless:

- the gain is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment), in which case such gain generally will be subject to United States federal income tax (and possibly branch profits tax) in generally the same manner as effectively connected interest income is taxed as described above; or
- you are an individual who is present in the United States for 183 days or more in the taxable year of such disposition, and certain other conditions are met, in which case you will be subject to a 30% United States federal income tax on any gain recognized (except as otherwise provided by an applicable income tax treaty), which may be offset by certain United States-source capital losses.

Information Reporting and Backup Withholding

Information reporting to the IRS will generally apply to payments of interest made to you and the amount of tax, if any, withheld with respect to such payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty.

In general, you will not be subject to backup withholding with respect to payments of interest on the notes provided that the applicable withholding agent has received from you the required certification that you are a Non-U.S. Holder described above in the fifth bullet point under “—Consequences to Non-U.S. Holders—United States Federal Withholding Tax,” or you otherwise establish an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other taxable disposition (including a retirement or redemption) of notes within the United States or conducted through certain United States-related financial intermediaries, unless you certify under penalties of perjury that you are a Non-U.S. Holder (and the payor does not have actual knowledge or reason to know that you are a United States person as defined under the Code), or you otherwise establish an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against your United States federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Requirements

Under Sections 1471 through 1474 of the Code (such Sections commonly referred to as “FATCA”), a 30% United States federal withholding tax may apply to any interest income paid on the notes to (i) a “foreign

financial institution” (as specifically defined in the Code) that does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) its compliance (or deemed compliance) with FATCA (which may alternatively be in the form of compliance with an intergovernmental agreement with the United States) in a manner that avoids withholding, or (ii) a “non-financial foreign entity” (as specifically defined in the Code) that does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) adequate information regarding certain substantial United States beneficial owners of such entity (if any). These rules generally apply regardless of whether the foreign financial institution or non-financial foreign entity is the beneficial owner of the notes or an intermediary. If an interest payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under “—Consequences to Non-U.S. Holders —United States Federal Withholding Tax,” the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. While withholding under FATCA would also have applied to payments of gross proceeds from the sale or other taxable disposition of the notes, proposed United States Treasury regulations, upon which taxpayers may rely until final regulations are issued, eliminate FATCA withholding on payments of gross proceeds. You should consult your own tax advisors regarding these rules and whether they may be relevant to your ownership and disposition of the notes.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the notes by (i) “employee benefit plans” within the meaning of Section 3(3) of the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”) that are subject to Title I of ERISA, (ii) plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to the fiduciary responsibility and/or prohibited transaction provisions of Title I of ERISA or Section 4975 of the Code (collectively, “Similar Laws”), and (iii) entities whose underlying assets are considered to include the assets of any of the foregoing described in clauses (i) or (ii) pursuant to ERISA or other applicable law (each of the foregoing described in clauses (i), (ii) and (iii) referred to as a “Plan”).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (a “Covered Plan”) and prohibit certain transactions involving the assets of a Covered Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of a Covered Plan or any authority or control over the management or disposition of the assets of a Covered Plan, or who renders investment advice for a fee or other compensation to such a Covered Plan, is generally considered to be a fiduciary of the Covered Plan.

In considering an investment in the notes of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary’s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Each Plan should consider the fact that none of the issuers, the guarantors, the underwriters nor any of their respective affiliates will act as a fiduciary to any Plan with respect to any decisions with respect to the notes, including any decision whether to acquire notes and is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, with respect to taking or not taking action in connection with the notes.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit Covered Plans from engaging in specified transactions involving plan assets with persons or entities who are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the Covered Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. Plans that are “governmental plans” (as defined in Section 3(32) of ERISA or Section 414(d) of the Code), certain “church plans” (as defined in Section 3(33) of ERISA or Section 414(e) of the Code), and non-U.S. plans (as described in Section 4(b)(4) of ERISA) are not subject to the fiduciary responsibility requirements of ERISA or the prohibited transaction provisions of ERISA or Section 4975 of the Code but may be subject to similar prohibitions under other applicable Similar Laws. The acquisition and/or holding of the notes by a Covered Plan with respect to which any of the issuers, the guarantors, the underwriters or any of their respective affiliates is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions (“PTCEs”) that may apply to the acquisition and holding of the notes. These class exemptions

Table of Contents

include, without limitation: PTCE 84-14, respecting transactions determined by independent qualified professional asset managers; PTCE 90-1, respecting insurance company pooled separate accounts; PTCE 91-38, respecting bank collective investment funds; PTCE 95-60, respecting life insurance company general accounts; and PTCE 96-23, respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions between a Covered Plan and a person or entity that is a party in interest or disqualified person with respect to the Covered Plan solely by reason of providing services to the Covered Plan or a relationship with such a service provider, provided that neither the person transacting with the Covered Plan nor any of its affiliates has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of the Covered Plan involved in the transaction and provided further that the Covered Plan receives no less than and pays no more than “adequate consideration” (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code) in connection with the transaction. Each of the above noted exemptions contains certain conditions and limitations on its application. Fiduciaries of Plans considering acquiring and/or holding the notes in reliance on any of these or any other exemption should carefully review the exemption to ensure it is applicable. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the notes should not be purchased or held by any person investing “plan assets” of any Plan, unless such purchase and holding will not constitute or result in a non-exempt prohibited transaction under ERISA or the Code or a similar violation of any applicable Similar Laws.

Representation

Accordingly, by acceptance of the notes (or any interest therein), each purchaser and subsequent transferee of the notes (or any interest therein) will be deemed to have represented and warranted that either (i) no portion of the assets used by or on behalf of such purchaser or transferee to acquire or hold the notes (or any interest therein) constitutes assets of any Plan or (ii)(a) the acquisition and holding of the notes (or any interest therein) by such purchaser or transferee will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws, and (b) none of the issuers, the guarantors, the underwriters nor any of their respective affiliates is its fiduciary with respect to all decisions with respect to the notes, including whether to invest in and/or hold the notes.

The foregoing discussion is general in nature and is not intended to be all inclusive and should not be construed as legal advice. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes. Each purchaser or subsequent transferee has exclusive responsibility for ensuring that their purchase and holding of the notes (or any interest therein) does not violate the fiduciary responsibility rules of ERISA or the prohibited transaction rules of ERISA or the Code or the provisions of applicable Similar Laws. The sale of any notes to a Plan is in no respect a representation by us, the underwriters or any of our or their affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by Plans generally or any particular Plan or that such investment is appropriate for Plans generally or any particular Plan.

UNDERWRITING

Barclays Capital Inc., BofA Securities, Inc., Goldman Sachs & Co. LLC, HSBC Securities (USA) Inc., J.P. Morgan Securities LLC and PNC Capital Markets LLC are acting as joint book-running managers and representatives of each of the underwriters named below. Subject to the terms and conditions set forth in the underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of notes set forth opposite its name below.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes are subject to approval of legal matters by counsel and to other conditions. The underwriters must purchase all of the notes if they purchase any of the notes. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

Notes sold by the underwriters to the public will initially be offered at the initial public offering prices set forth on the cover of this prospectus supplement. After the initial offering, the public offering prices, concessions or any other term of the offering may be changed.

The following table shows the underwriting discounts that we are to pay to the underwriters in connection with this offering:

	<u>Paid by us</u>

Per 20 Note	%
Per 20 Note	%

We estimate that our share of the total expenses of the offering, excluding the underwriting discount, will be approximately \$.

General

The issuers and the guarantors have agreed to indemnify the several underwriters against liabilities that could arise including liabilities under the Securities Act or to contribute to payments that the underwriters may be required to make because of any of those liabilities.

The notes will be new securities for which there are currently no markets. The notes will not be listed on any securities exchange or automated quotation system. Although the underwriters have informed us that they intend to make a market in the notes of each series, they are not obligated to do so, and they may discontinue market-making activities at any time without notice. Accordingly, we cannot assure you that liquid markets for the notes will develop or, if such markets develop, that they will be maintained.

Table of Contents

We expect that delivery of the notes will be made against payment therefor on or about _____, 2026, which is the _____ business day following the date of pricing of the notes (this settlement cycle being referred to as “T+ _____”). Since trades in the secondary market generally settle in one business day, purchasers who wish to trade their notes on any date prior to the first business day before delivery will be required, by virtue of the fact that the notes initially will settle in T+ _____, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on any date prior to the first business day before delivery should consult their own advisors.

In connection with the Offering, the underwriters may purchase and sell notes in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of notes than they are required to purchase in the Offering.
- Stabilizing transactions involve bids to purchase the notes so long as the stabilizing bids do not exceed a specified maximum.
- Covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions.
- Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the underwriters, in covering short positions or making a stabilizing purchase, repurchase notes originally sold by that syndicate member to cover positions.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market prices of the notes. These over-allotments, stabilizing transactions, covering transactions and penalty bids may cause the prices of the notes to be higher than they would otherwise be in the absence of these transactions. These transactions, if commenced, may be discontinued at any time. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have provided and/or may provide in the future, investment banking, commercial banking and other financial services for us and our affiliates in the ordinary course of business, for which they have received and will receive customary compensation. Affiliates of certain of the underwriters act as agents and/or lenders under the new revolving credit facility, and have received fees in connection with such roles. Certain of the underwriters or their affiliates also act as lenders and/or agents under certain of our structured financing debt and/or are holders of our other debt and in the event the net proceeds of this Offering are applied to repay debt, such underwriters or their affiliates may receive a portion of the net proceeds of this Offering. In addition, a member of the Dell Technologies board of directors is also a director of Goldman Sachs Group Inc., an affiliate of one of the underwriters.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments including serving as counterparties to certain derivative and hedging arrangements and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers, and may at any time hold long and short positions in such securities and instruments and such investment and securities activities may involve our securities and/or instruments. If the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, certain of the underwriters or their affiliates are likely to hedge or otherwise reduce, and certain

other of these underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. The underwriters and their affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and/or their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold for their own account and for the accounts of their customers, or recommend to clients that they acquire long and/or short positions in such securities and instruments.

DESCRIPTION OF DEBT SECURITIES

This prospectus describes certain general terms and provisions of the debt securities. The debt securities covered by this prospectus will be the Issuers' and, as applicable, Dell Technologies' and the additional Registrant Guarantors' senior unsecured obligations. The debt securities will be issued under one or more base indentures, together with related officer's certificates or supplemental indentures between the Issuers, the guarantors party thereto and The Bank of New York Mellon Trust Company, N.A., as trustee (the "Trustee"), including under the indenture, dated as of January 24, 2023, among the Issuers, the guarantors party thereto (the "Guarantors") and the Trustee (together with any related supplemental indentures or officer's certificates, the "Existing Indenture"). We refer herein to each of the Existing Indenture and any other indenture under which debt securities will be issued pursuant to this prospectus as the "Indenture." The terms of the Indenture and any debt securities issued thereunder will be set forth in the prospectus supplement relating to such debt securities. The prospectus supplement will also indicate whether the general terms and provisions described in this prospectus apply to a particular series of debt securities.

We have summarized some terms of the Existing Indenture below. We expect that the terms of the Indenture, if other than the Existing Indenture (any such other Indentures, a "New Indenture"), will be substantially similar to the Existing Indenture; however, we will describe the specific terms of the debt securities to be issued under any such New Indenture in a supplement to this prospectus. The below summary of the Existing Indenture is not complete. The Existing Indenture is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. You should read the Existing Indenture for a complete statement of the provisions summarized in this prospectus and for provisions that may be important to you. The Existing Indenture is subject to the provisions of the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"), that are required to be a part of the Existing Indenture and which are deemed to be incorporated into the Existing Indenture and shall, to the extent applicable, be governed by those provisions.

In this section of the prospectus, references to the "Issuers" are to Dell International and EMC and not any of their Subsidiaries. When we refer to specific sections contained in the Existing Indenture or terms defined in the Existing Indenture, including important terms, which we capitalize here, we use them in this prospectus in the same way we use them in the Existing Indenture, and you should refer to the Existing Indenture itself for detailed, specific, legal descriptions thereof.

Summary of the Existing Indenture

- the price or prices at which the Issuers will sell the debt securities of the series;

Debt securities may be issued as original issue discount securities to be sold at a discount from their principal amount. Furthermore, we may from time to time, without notice to or the consent of the holders of any series of debt securities, create and issue further debt securities of any such series ranking equally with, and having the same terms and conditions as, the debt securities of such series in all respects (or in all respects other than the payment of interest accruing prior to the issue date of such further debt securities); *provided* that if such additional debt securities are not fungible with the initial debt securities of such series for U.S. federal income tax

Reports and Other Information

To the extent any debt securities are outstanding, Dell Technologies shall deliver to the Trustee any reports, information and documents that Dell Technologies is required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act within 30 days after such report, information or document is required to be filed with the SEC. All such reports, information or documents that Dell Technologies files with the SEC via the SEC's EDGAR system shall be deemed to be filed with the Trustee and transmitted to holders of debt securities at the time such reports, information or documents are filed via the EDGAR system (or any successor system).

Delivery of the foregoing reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such shall not constitute constructive or actual knowledge or notice of any information contained therein or determinable from information contained therein, including the Issuers' compliance with any of their covenants under the Existing Indenture (as to which the Trustee is entitled to rely exclusively on officer's certificates).

Events of Default

Unless otherwise specified in the applicable prospectus supplement, each of the following events is defined in the Existing Indenture as an "Event of Default" (whatever the reason therefor and whether or not it will be

Table of Contents

voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body) with respect to the debt securities of any series:

- (1) the failure to pay the principal of (or premium, if any, on) such series of debt securities when due and payable;
- (2) the failure to pay any interest installment or Additional Amounts on such series of debt securities when due and payable, which failure continues for 30 days;
- (3) the failure by the Issuers to comply for 90 days after written notice given by the Trustee or the holders of not less than 30% in aggregate principal amount of the outstanding debt securities of such series with its covenants or other agreements (other than those described in clause (1) or (2) above) contained in the Existing Indenture; *provided* that in the case of a failure to comply with the provisions described under “— *Reports and Other Information*,” such period of continuance of such default or breach shall be 180 days after written notice described in this clause (3) has been given; *provided* that no such notice may be given with respect to any action taken, and reported publicly or to the holders of debt securities, more than two years prior to such notice; and
- (4) certain events of bankruptcy, insolvency or reorganization involving an Issuer (the “bankruptcy provisions”).

Unless otherwise specified in the applicable prospectus supplement, if an Event of Default enumerated above with respect to the debt securities of any series at the time outstanding shall occur and be continuing, then either the Trustee or the holders of at least 30% in aggregate principal amount of the outstanding debt securities of such series may declare the principal, premium, if any, interest and any other monetary obligations on all the debt securities of such series to be due and payable immediately by a notice in writing to the Issuers (and to the Trustee if given by the holders of such debt securities). At any time after such a declaration of acceleration has been made, but before a judgment or decree for payment of the money due has been obtained by the Trustee, the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, by written notice to the Issuers and the Trustee, may, in certain circumstances, rescind and annul such acceleration. If an Event of Default relating to the bankruptcy provisions occurs and is continuing, the principal of and interest on all the debt securities will *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holders of debt securities.

Subject to certain restrictions, no holder of any debt securities of any series shall have any right to institute any proceeding with respect to the Existing Indenture or the debt securities of such series or for any remedy thereunder, unless such holder previously shall have given to the Trustee written notice of a continuing Event of Default with respect to the debt securities of such series and unless also the holders of not less than 30% in aggregate principal amount of the outstanding debt securities of such series shall have made written request upon the Trustee, and have offered to the Trustee indemnity satisfactory to the Trustee against the costs, expenses and liabilities to be incurred in compliance with the request, and the Trustee, for 60 days after receipt of such notice, request and offer of indemnity, shall have failed to institute such proceeding and, during such 60-day period, the Trustee shall not have received direction inconsistent with such request in writing by the holders of a majority in aggregate principal amount of the outstanding debt securities of such series. These limitations do not apply, however, to a suit instituted by a holder of a debt security for the enforcement of payment of the principal of, premium, if any, or interest on such note on or after the respective due date expressed in such debt security.

Subject to certain restrictions, the holders of a majority in aggregate principal amount of the outstanding debt securities of a series will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee with respect to such series, and the Trustee may act at the direction of holders of debt securities without liability. The Trustee, however, may refuse to follow any direction that conflicts with law or the Existing Indenture or that the Trustee determines is unduly prejudicial to the rights of any other holder of a debt security of such series or that would involve the Trustee in personal liability.

Table of Contents

If a Default with respect to any series of debt securities occurs and is continuing and the Trustee has received written notice thereof, the Trustee must mail (or otherwise transmit in accordance with the procedures of The Depository Trust Company) to each holder of such series of debt securities notice of the Default within 90 days of having received such notice; *provided*, that, except in the case of a Default in the payment of principal or premium, if any, or interest on any debt security, the Trustee may withhold from the holders of such series of debt securities notice of any continuing Default if and so long as a committee of the Trustee's responsible officers in good faith determines that withholding the notice is in the interests of the holders of such series of debt securities. The Issuers will be required to deliver to the Trustee, within 120 days after the end of each fiscal year of Dell Technologies, an officer's certificate indicating whether the signer of the certificate knows of any failure by the Issuers or the Guarantors to comply with all conditions and covenants of the Existing Indenture during such fiscal year.

Amendment, Supplement and Waiver

To the extent permitted by the Existing Indenture and subject to the following paragraphs, without the consent of any holders of debt securities, the Issuers, the Guarantors and the Trustee may from time to time amend, supplement or modify the Existing Indenture, including to provide for the issuance of additional debt securities under the Existing Indenture (including Additional Securities of such series, if any).

Subject to certain exceptions, modifications and amendments of the Existing Indenture, the debt securities of one or more series and the Security Guarantees may be made by the Issuers, any Guarantor (with respect to its Security Guarantee) and the Trustee with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of such series (including Additional Securities of such series, if any) then outstanding voting as a single class (including consents obtained in connection with a purchase of, or a tender offer or exchange offer for, the debt securities of such series), and any past Default or Event of Default with respect to such series of debt securities or compliance in respect of a series of debt securities with any provision of the Existing Indenture, the Security Guarantees or such series of debt securities may be waived with the consent of the holders of not less than a majority in aggregate principal amount of the then outstanding debt securities of such series (including Additional Securities of such series, if any) voting as a single class (including consents obtained in connection with a tender offer or exchange offer for, or purchase of, the debt securities of such series; *provided*, however, that no such modification or amendment may, without the consent of the holder of each outstanding debt security affected thereby:

- change the stated maturity of the principal of, or any installment of principal of or interest on, any such debt security;
- reduce the principal amount of, or the rate of interest on, any such debt security;
- reduce any premium, if any, or redemption price payable upon the redemption of any such debt security;
- reduce the amount of the principal of an original discount debt security that would be due and payable upon a declaration of acceleration of the maturity thereof;
- change any place of payment where, or the coin or currency in which, the principal of, premium, if any, or interest on any such debt security is payable;
- amend the contractual right expressly set forth in the Existing Indenture or any debt security of any holder to institute suit for the enforcement of any payment of principal of, premium, if any, or interest (or Additional Amounts, if any) on such debt security on or after the stated maturity or redemption date of any such debt security;
- reduce the percentage in aggregate principal amount of the outstanding debt securities of any series, the consent of whose holders is required to approve any such modification or amendment or for any waiver of compliance with certain provisions of the Existing Indenture or of certain Defaults;

Table of Contents

- modify any of the provisions in the Existing Indenture regarding the waiver of past Defaults and the waiver of certain covenants by the holders of each such debt security affected thereby, except to increase any percentage vote required or to provide that certain other provisions of the Existing Indenture may not be modified or waived without the consent of the holder of each debt security affected thereby; or
- modify any of the above provisions.

Notwithstanding the foregoing, the Issuers, the Guarantors (only with respect to its Security Guarantee, and for the avoidance of doubt excluding any amendment or supplement the sole purpose of which is to add an additional Guarantor) and the Trustee may amend or supplement the Existing Indenture or the debt securities of one or more series and any related Security Guarantee without the consent of any holder:

- to cure any ambiguity or omission or correct any defect or inconsistency;
- to convey, transfer, assign, mortgage or pledge any property to or with the Trustee, or to make such other provisions in regard to matters or questions arising under the Existing Indenture, in each case as shall not adversely affect the interests of any holders of the debt securities of such series in any material respect;
- to evidence the succession of another Person to an Issuer or any Guarantor and the assumption by any such successor of the covenants, agreements and obligations of such Issuer or Guarantor, as the case may be, under the debt securities, the Security Guarantees or the Existing Indenture, as described above under “*Merger, Consolidation, Amalgamation or Sale of All or Substantially All Assets*”;
- to surrender any right or power conferred upon the Issuers with respect to such series or to add further covenants, restrictions, conditions or provisions relating to the Issuers or the Guarantors for the protection of the holders of any series of debt securities, and to add any additional defaults or Events of Default for the Issuers’ or any Guarantor’s failure to comply with any such further covenants, restrictions, conditions or provisions;
- to modify or amend the Existing Indenture (including any supplemental indenture) to make changes as are required for the Existing Indenture to comply with the Trust Indenture Act;
- to add Security Guarantees with respect to any or all of the debt securities of such series or to release any Guarantor or Security Guarantee if at the time of such release such Guarantor is not otherwise required to be a Guarantor;
- to add collateral with respect to any or all of the debt securities of such series;
- to provide for the issuance of Additional Securities in accordance with the terms of the Existing Indenture;
- to make any change that does not adversely affect the rights of any holder of debt securities of such series;
- to evidence and provide for the acceptance of appointment by a successor or separate Trustee with respect to the debt securities of such series;
- to comply with the rules of any applicable securities depositary;
- to provide for uncertificated debt securities in addition to or in place of certificated debt securities;
- to conform the text of the Existing Indenture, the debt securities, any related Security Guarantee or any security documents to the description of such debt securities contained in this prospectus, any prospectus supplement or any similar document with respect to the offering of the debt securities of such series to the extent such descriptions were intended to be a verbatim recitation of a provision in the Existing Indenture, such debt securities, such Security Guarantee or such security documents;

Table of Contents

- to make any amendment to the provisions of the Existing Indenture relating to the transfer and legending of debt securities; *provided*, however, that (a) compliance with the Existing Indenture as so amended would not result in such debt securities being transferred in violation of the Securities Act or any other applicable securities law and (b) such amendment does not adversely affect the rights of holders to transfer such debt securities; or
- to establish the forms or terms of debt securities of any series as permitted by the provisions of the Existing Indenture.

The consent of the holders of debt securities is not necessary to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Satisfaction and Discharge

The Existing Indenture provides that, when (1) the Issuers deliver to the Trustee all outstanding debt securities of a series under the Existing Indenture for cancellation or (2) all outstanding debt securities of a series under the Existing Indenture not previously delivered to the Trustee for cancellation have become due and payable, whether at maturity or on a redemption date as a result of the mailing of notice of redemption, will become due and payable within one year, or are to be called for redemption within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuers, and, in the case of clause (2), the Issuers irrevocably deposit with the Trustee U.S. dollars, or U.S. government obligations, or both, sufficient to pay at maturity or upon redemption all such outstanding debt securities of such series, including interest thereon to maturity or such redemption date, and if in either case the Issuers pay all other sums payable by the Issuers under the Existing Indenture with respect to such series of debt securities and satisfy certain other conditions, then the Existing Indenture will, subject to certain exceptions, cease to be of further effect with respect to such series of debt securities; *provided*, that upon any redemption that occurs prior to a par call date, the amount deposited shall be sufficient for purposes of the Existing Indenture to the extent that an amount is deposited with the Trustee equal to the redemption price calculated as of the date of the notice of redemption, with any deficit as of the date of redemption (any such amount, the "Redemption Price Deficit") only required to be deposited with the Trustee on or prior to the date of redemption. Any Redemption Price Deficit shall be set forth in an officer's certificate delivered to the Trustee simultaneously with the deposit of such Redemption Price Deficit that confirms that such Redemption Price Deficit shall be applied toward such redemption.

Legal Defeasance and Covenant Defeasance

The Existing Indenture provides that the Issuers may elect with respect to any series of debt securities either (1) to defease and be discharged from any and all obligations with respect to such debt securities (except for, among other things, certain obligations to register the transfer or exchange of the debt securities, to replace temporary or mutilated, destroyed, lost or stolen debt securities, to maintain an office or agency with respect to debt securities and to hold moneys for payment in trust) ("legal defeasance") or (2) to be released from their obligations to comply with the restrictive covenants under the Existing Indenture, and any omission to comply with such obligations will not constitute a Default or an Event of Default with respect to such debt securities, and clause (3) under "Events of Default" will no longer be applied ("covenant defeasance"). If the Issuers exercise their legal defeasance option or their covenant defeasance option with respect to a series of debt securities, each Guarantor will be released from all of its obligations with respect to its Security Guarantee with respect to such series of debt securities. Legal defeasance or covenant defeasance, as the case may be, will be conditioned upon, among other things, the irrevocable deposit by the Issuers with the Trustee, in trust, of an amount in U.S. dollars, or U.S. government obligations (that through the scheduled payment of principal and interest in accordance with their terms will provide money in an amount), or both, sufficient in the opinion of a nationally recognized public accounting firm to pay the principal or premium, if any, and interest on the applicable debt securities on the scheduled due dates therefor.

[Table of Contents](#)

If the Issuers effect covenant defeasance with respect to any series of debt securities and such debt securities are declared due and payable because of the occurrence of any Event of Default other than under clause (3) under “*Events of Default*,” the amount in U.S. dollars, or U.S. government obligations, or both, on deposit with the Trustee will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay amounts due on such debt securities at the time of the stated maturity but may not be sufficient to pay amounts due on such debt securities at the time of the acceleration resulting from such Event of Default. However, the Issuers would remain liable to make payment of such amounts due at the time of acceleration.

To effect legal defeasance or covenant defeasance, the Issuers will be required to deliver to the Trustee an opinion of counsel that the deposit and related defeasance will not cause the holders of the applicable debt securities to recognize income, gain or loss for U.S. federal income tax purposes. If the Issuers elect legal defeasance, that opinion of counsel must be based upon a ruling from the U.S. Internal Revenue Service or a change in law to that effect.

The Issuers may exercise their legal defeasance option notwithstanding their prior exercise of their covenant defeasance option.

Form of Debt Securities

Each debt security will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. Certificated securities in definitive form and global securities will be issued in registered form.

Definitive securities name you or your nominee as the owner of the security, and in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the office or agency designated by the Issuers. Global securities name a depository or its nominee as the owner of the debt securities represented by the global securities.

We may issue the debt securities in the form of one or more fully registered global securities that will be deposited with a depository or its nominee identified in the applicable prospectus supplement and registered in the name of that depository or nominee. In those cases, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of the securities to be represented by global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a global security may not be transferred except as a whole by and among the depository for the global security, the nominees of the depository or any successors of the depository or those nominees.

If not described below, any specific terms of the depository arrangement with respect to any securities to be represented by a global security will be described in the prospectus supplement relating to those securities. We anticipate that the following provisions will apply to all depository arrangements.

Ownership of beneficial interests in a global security will be limited to persons, called participants, that have accounts with the depository.

Upon the issuance of a global security, the depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal or face amounts of the securities beneficially owned by the participants. Any dealers, underwriters or agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some states may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in global securities.

Table of Contents

So long as the depository, or its nominee, is the registered owner of a global security, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the securities represented by the global security for all purposes under the Existing Indenture. Except as described below, owners of beneficial interests in a global security will not be entitled to have the securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the Existing Indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of the depository for that global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the Existing Indenture. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a global security desires to give or take any action that a holder is entitled to give or take under the Existing Indenture, the depository for the global security would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Principal (or premium, if any) and interest payments on debt securities represented by a global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the global security.

We expect that the depository for any of the securities represented by a global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other property to holders of that global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in a global security held through participants will be governed by standing customer instructions and customary practices, and will be the responsibility of those participants.

We may at any time and in our sole discretion decide not to have any of the securities represented by one or more global securities. If we make that decision, we will issue securities in definitive form in exchange for the global security or securities representing those securities. Any securities issued in definitive form in exchange for a global security will be registered in the name or names that the depository gives to the Trustee or relevant agent of ours or theirs. It is expected that the depository's instructions will be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global security that had been held by the depository.

The Existing Indenture provides that, if a Guarantor is either (1) a direct or indirect parent company of Dell Technologies and does not hold any material assets other than the Equity Interests of Dell Technologies or (2) a direct or indirect wholly-owned subsidiary of Dell Technologies and does not hold any material assets other than the Equity Interests of the Issuers and their direct or indirect parent companies (in each case, as determined in good faith by the board of directors (or similar governing body) or senior management of such Guarantor), any calculations or measures that are stated to be determined with reference to Dell Technologies' financial statements may be determined with reference to such Guarantor's financial statements instead.

PLAN OF DISTRIBUTION

The Issuers may sell the offered securities from time to time in one or more transactions: (a) through agents; (b) through underwriters or dealers; (c) in the over-the-counter market; (d) in privately negotiated transactions; (e) directly to one or more purchasers; or (f) through a combination of any of these methods of sale.
